

“ENVIRONMENTAL STEWARDSHIP

is a core value at Eagle Wing Tours. We are Canada's first carbon-neutral whale-watching company and members of 1% for the Planet. The natural world has massive demands being placed on it. We aspire to be responsible stewards which means being active, positive contributors to the marine ecosystem we love and from which we have the privilege of making our living.

It is our belief that wildlife-viewing can have educational merit, and that it greatly enhances the value of the experience. As compassionate marine stewards, Eagle Wing Tours inspires the conservation of our marine environment, with a thrill!
