PictoGraphix Inc.
DESIGNS

Building evacuation plans, fire evacuation maps and emergency exit signs are essential to meet fire and building code requirements. Pictographix provides custom building evacuation maps and safety signs, including photoluminescent exit signs and photoluminescent egress path marking systems. Building evacuation maps are carefully designed to meet all client and fire code requirements. A wide choice of evacuation sign holders and plan casements are offered

We provide the largest selection of displays and casements to protect you evacmap diagrams. Our custom cut plaques are designed to meet all your environmental and aesthetic requirements. Utilizing the latest in UV safe print and CNC router cutting technology, Evacmap diagrams can be printed to virtually any media.

Graphics Services

Our graphic design team can produce your custom evacuation plans in a simple, aesthetic and easy-to-read manner. We adhere to specific fire codes while maintaining an aesthetically pleasing graphical style.

Printing Services

Wide format printing with a flat-bed multi color printer - prints up to 4'x8'. Print to virtually any media (foam core, Di-bond, Sintra, acrylic). Plaque cut to any size or shape with CNC router cutting services.

Display Types

Plaques - Direct digital print to PVC, acrylic or aluminum

Artwork is digitally printed to media surface or subsurface using UV cured ink. CNC router cutting technology allows for custom sign shapes, rounded corners and pre-drilled holes for surface mounting. Plaques are durable and cost effective.

Casements & Holders - Digital print housed within a durable display

Artwork is printed to paper using UV cured ink and housed within a quality casement. A wide selection of durable/vandal-resistant casements are available. The artwork can be interchanged if floor plan updates are required.

Photoluminescent Casements - Evacuation diagrams that glow in the dark - Highest glow in the industry!

The artwork is digitally printed to acetate media and placed into photoluminescent casements that have a glow-in-the-dark backer. In the event of a power failure, evacuation diagrams will be legible for the duration of the evacuation. The artwork can be interchanged if floor plan updates are required.

Mounting Materials

Mounting Hardware - Specialty screw/cap and stand-off hardware.
Mounting Tapes - Permenant adhesive tapes.
