October 2015

We had a large 2,600 square foot barn full of tools we wanted to sell. In August, the family considered a yard sale and then discussed an auction as perhaps a better means to sell our items. We called Allen's Auction Centre Ltd. Matthew Allen promptly came out to meet with us to explain in detail how the auction process works. He explained the pros and cons of a live auction versus an online auction. In early October, we decided an online auction was the best route to sell our items as they could be sold right from our barn, saving valuable time and moving expenses. Matthew and his staff member John then came out to the property.

The first plan of action was to take stock of all the items in the barn. The next step was to pull out items and decide how they would be lotted and tagged for sale. Matthew & John were very easy to talk to and explained in detail how our items would be sold in the online auction while they were setting it up. The items were set up neatly on a table or shelf so they could easily be lotted and tagged. The lots, one at a time, were then set up to take pictures at which point descriptions were done and transferred to their internet bidding website.

Allen's Auction Centre's planning and auction set up over the 3 weeks was very well done. I was shown respect and kindness throughout the process. The sale was very well advertised by Allen's Auction Centre. The day for viewing, pick-up and payment went well also. There were lots of phone calls which were well received and apart from a few items that did not sell, everything went smoothly.

I would like to thank Matthew Allen and his staff for the positive online auction experience and I would definitely recommend their services to others.

Sincerely,  
Marion M.

*April 2015*

*I used Allen's Auction Centre's services recently and they were definitely a God-send in my difficult situation. With a house to be sold and a garage full of tools to be emptied, I was at my wits end.*

*A friend put me in touch with Allen's Auction Centre Ltd. and I thank him for it. They came over and took care of packing and moving all the tools and household contents in a very respectful and consoling manner.*

*I would have had to give everything away, as it would have taken me years to sell everything and I didn't have years to do it. Allen's Auction Centre's professional manner and the full account of all that was sold in such a short time boggles my mind.*

*One thing I perhaps appreciated the most was that they sold the things in a day and it was the next day that I had my settlement cheque in hand. I would recommend Allen's Auction Centre's services to my friends without hesitation.*

*Thank you,  
Dorothy C.*

March 2015

To whom it may concern:

I would like to say that on the occasion of using Allen's Auction Centre Ltd., I found Matthew Allen to be an excellent person to deal with. He was punctual with both emails and when he came to see the pieces I had to for him to auction. Matthew and his staff were very accommodating when it came to picking up the pieces and took the utmost care when loading them into his trailer. Matthew made sure to keep me in the loop regarding when the auction would take place. He also sent me a detailed consignor inventory list before the auction. After the auction, he sent me another list showing what everything sold for.

As for payment, I couldn't have asked for it any quicker. Within 2 days I was sent an email with the amount I was to be paid and an itemized receipt. Payment conveniently went directly to my bank account via an e-Transfer.

All in all it was a very easy process from the first meeting with Matthew until the very end. I would do business again with Allen's Auction Centre Ltd. anytime I am in need of this service. It was a completely worry and hassle free experience. I highly recommend the services of Allen's Auction Centre Ltd.

Sincerely,  
Barry B.
