

UTV Rentals

Whitecourt All Terrain carries midsize Polaris Ranger side by side UTV's.

The compact midsize Ranger provides easy passage through overgrown areas.

The lightweight design offers versatility and agility and provide for safe, and easier travel through rough and wet terrain in comparison to larger, and heavier full size models.

All Whitecourt All Terrain machines are equipped with a roof, front window, and 4500 lb winch.

Available with Fully Enclosed Heated Cabs

Tracked Side x Sides

Adding tracks to the already versatile midsize Ranger makes it a valuable asset year round. All season tracks allow safe, comfortable, and reliable travel in wet or winter conditions.

The ROPS (Role Over Protection System) enclosed cab system eliminates the dangers of the elements.

With the added ability to transport 2 people and equipment, the Ranger is often a safer and more practical alternative to snowmobiles.

4 Seat Crew Models Also Available

ATV Rentals

Honda is the industry leader of commercial use quads. The Honda 420 will get you to your destination and back to your vehicle safely and reliably.

The convenient electric start and fuel injected engine will get you going quickly and conveniently in all weather conditions, while the back up pull start is an extra bit of security when working in remote areas.

The lightweight and compact design of the Honda 420 allows easy travel through overgrown trails, and you can easily traverse terrain that would challenge larger machines due to their bulk and weight.
