About Ask Datatech:

Ask Datatech is a data technology company ISO 9001:2008-registered and certified, based in Ahmedabad, the home of technology and innovations in India. Incorporated 16 years ago, Ask Datatech is a cutting-edge data services provider that has consistently delivered various products and services in data entry and solutions. We have proven our capacity in providing quality data entry service, data management services, data conversion services, offline and online data entry services, data processing, data scraping, web scrapping, SEO Service, scanning and OCR service, and other essential back-office services to our customers across the globe. Our goal is to serve our valued clients with well-tested products and solutions, cutting-edge technologies, and collaboration. We have successfully achieved this goal by delivering over 1500 projects across Europe, America, Australia, and Asia.

We Serve to Customer

Ask Datatech is an ISO certified company that offers non-core operation services to businesses and companies. Our goal is to help maximize the organizational office functions. We offer all Data Entry Services at the lowest cost possible. The company is better known for its dependable and honest non-voice outsourcing services in USA, Brazil, Australia, Germany, Canada, and UK. At Ask Datatech, we offer an array of data entry services ranging from Offline data entry to Online Data entry. We also offer PDF to excel for data entry and offshore data entry services. Our goal is to help our customers across the world to fulfill their business needs at a click of a button. Some of the services we offer include:
